

Job Description

SENIOR TEST TECHNICIAN

Melbourne-Mnemonics-Inc.

US CITIZENSHIP REQUIRED

SUMMARY

Performs a variety of semi-routine tasks to ensure production quality standards are met. This individual has the responsibility and authority to perform the assigned tasks listed below.

ESSENTIAL DUTIES AND RESPONSIBILITIES

- Under limited supervision, performs the set-up, calibration, testing and troubleshooting of circuits, components, instruments and mechanical assemblies.
- Performs hand set-ups for AC and DC digital tests.
- Recognizes failures and set-up problems and determines need for appropriate verification.
- Operates programmable AC auto-testers, samplers, and real-time oscilloscopes, pulse generators, meters, power supplies, and special AC test fixtures.
- Prepares written reports and test data sheets.
- Troubleshoots to component level.
- Performance of tasks requires use of judgment and technical training.
- Responsible for participating in the quality management system initiatives and adhering to all requirements.
- Responsible for performing other related tasks deemed necessary by superiors.
- Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

PRIMARY AREA OF RESPONSIBILITY:

Product Testing & Troubleshooting

SKILLS REQUIRED

Ability to test and troubleshoot Analog, Digital & RF CCA's and Assemblies.

QUALIFICATIONS, EDUCATION AND EXPERIENCE

Requires an AS degree or technical education or equivalent 4+ Years' experience with Testing and Troubleshooting Military Digital and RF Products. Flying Probe experience preferred.
